

MJH Engineering

Case Study

MJH is one of New Zealand's leading structural steel fabricators, specializing in the fabrication and installation of large scale structural steel projects.

Overview

Experience the modern transformation of MJH Engineering Ltd's online presence. Our website redesign at Quela brought a sleek and contemporary design to showcase their industrial engineering and fabrication expertise.

✓ First and foremost: Showcase Projects

The main focus for the site was to highlight the incredible constructions that MJH has created.

✓ Skilled worker recruitment

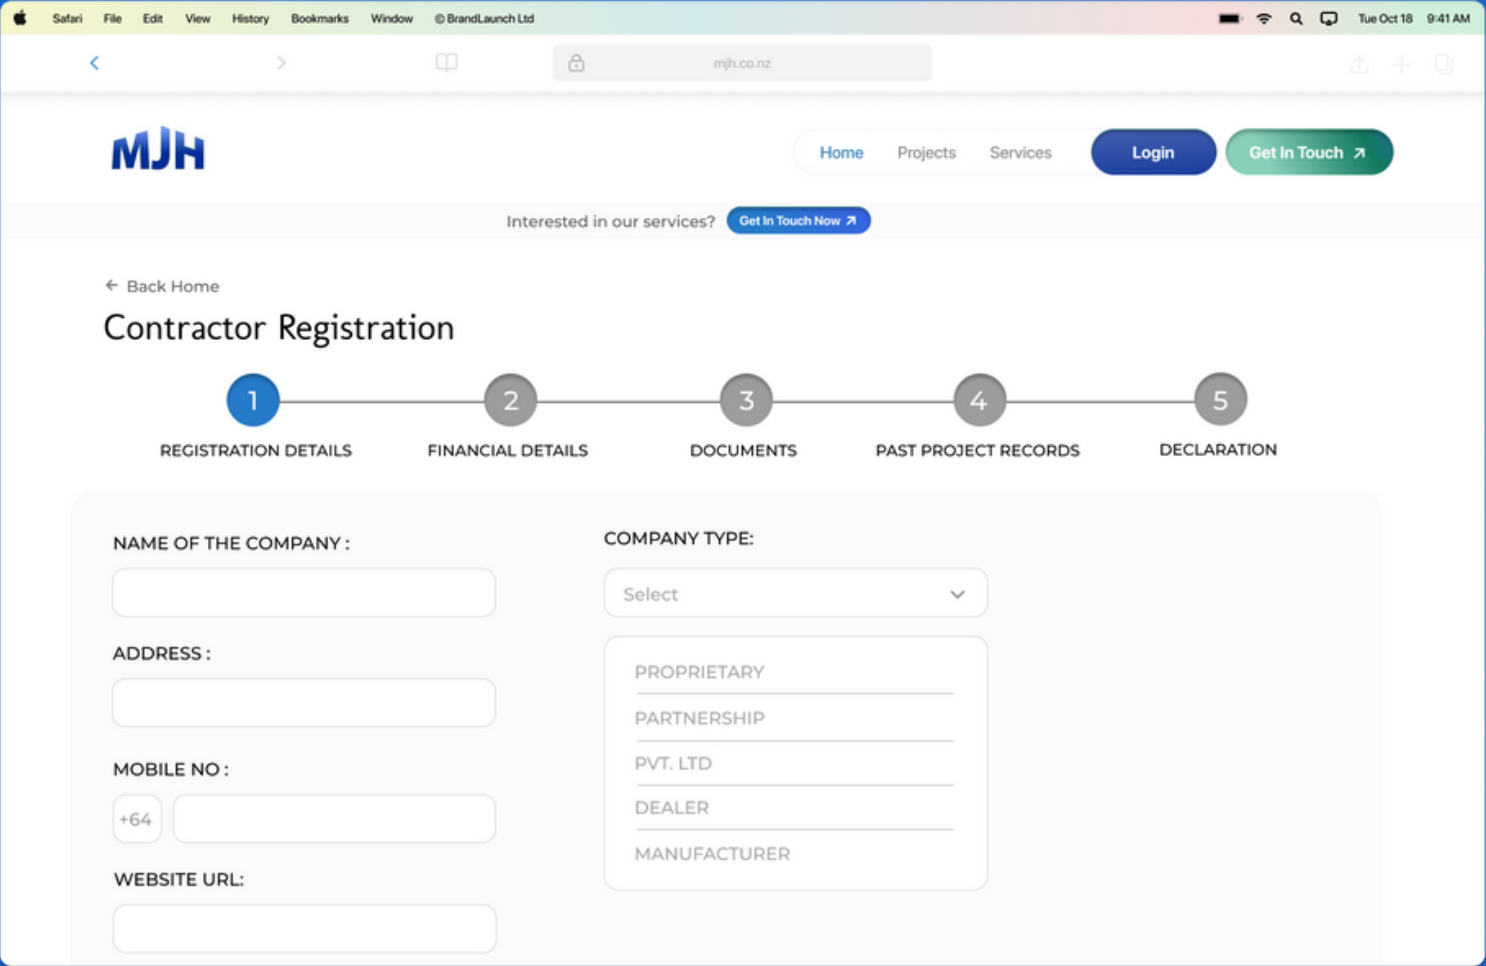

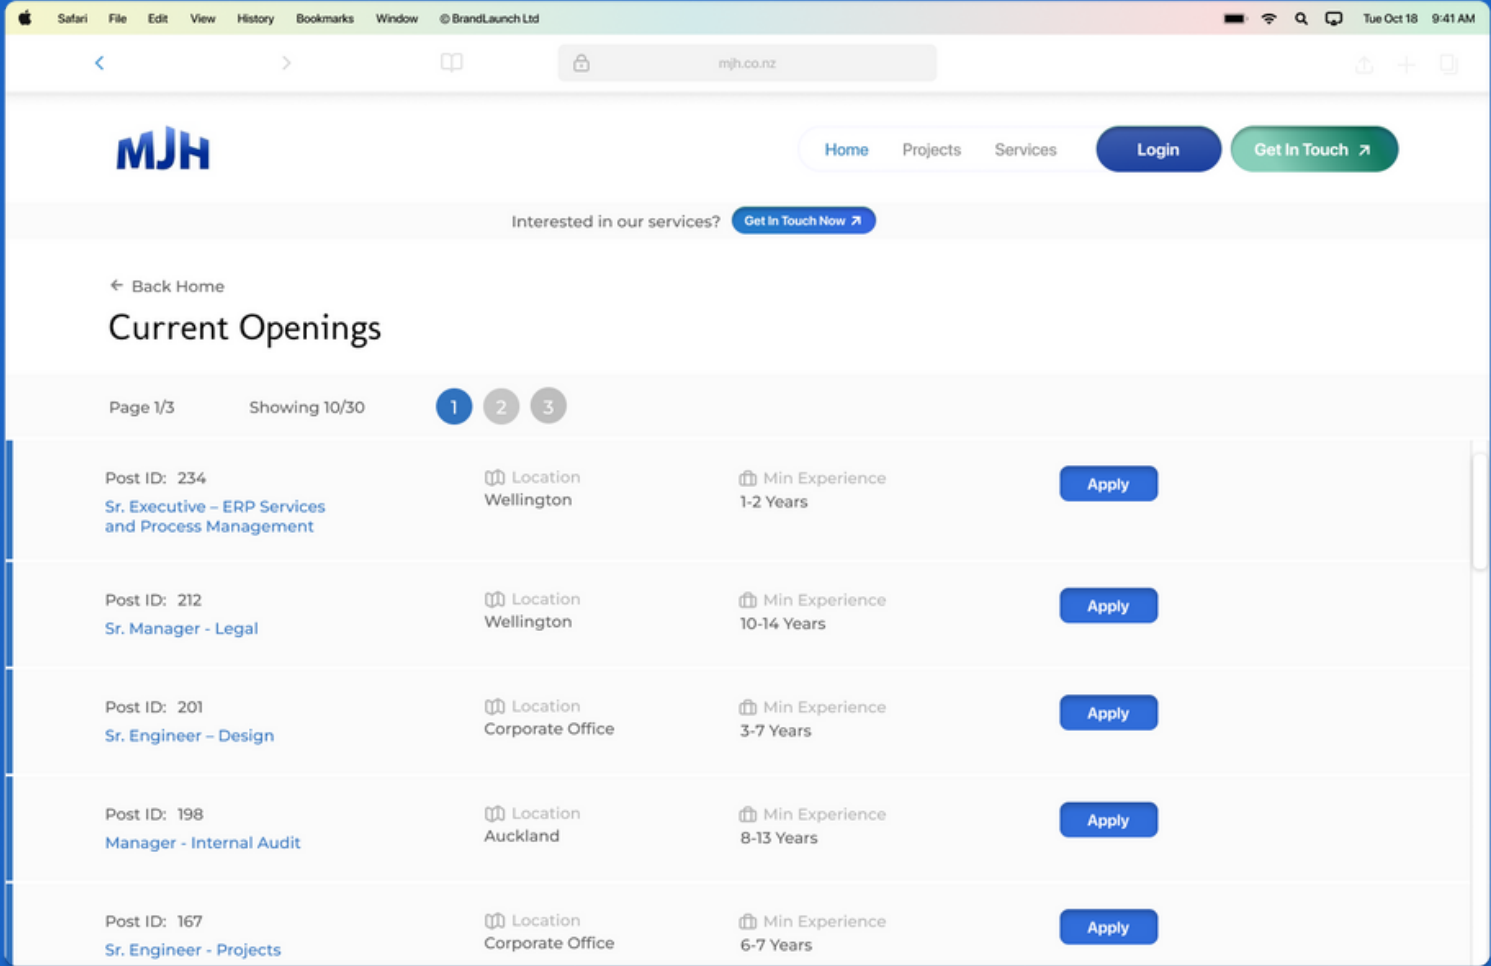

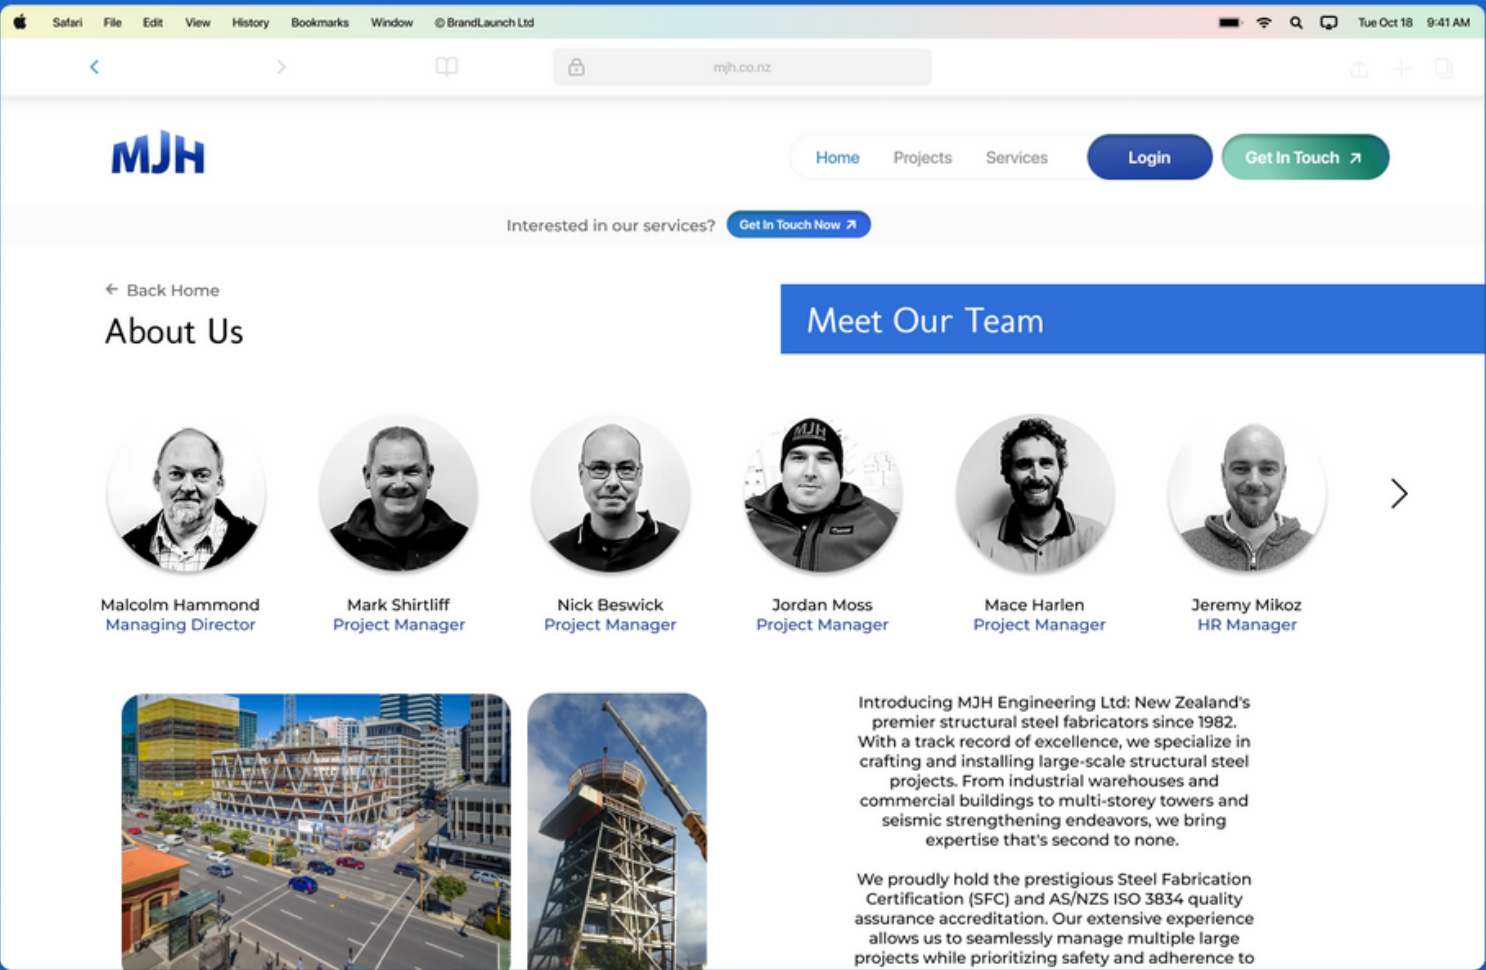

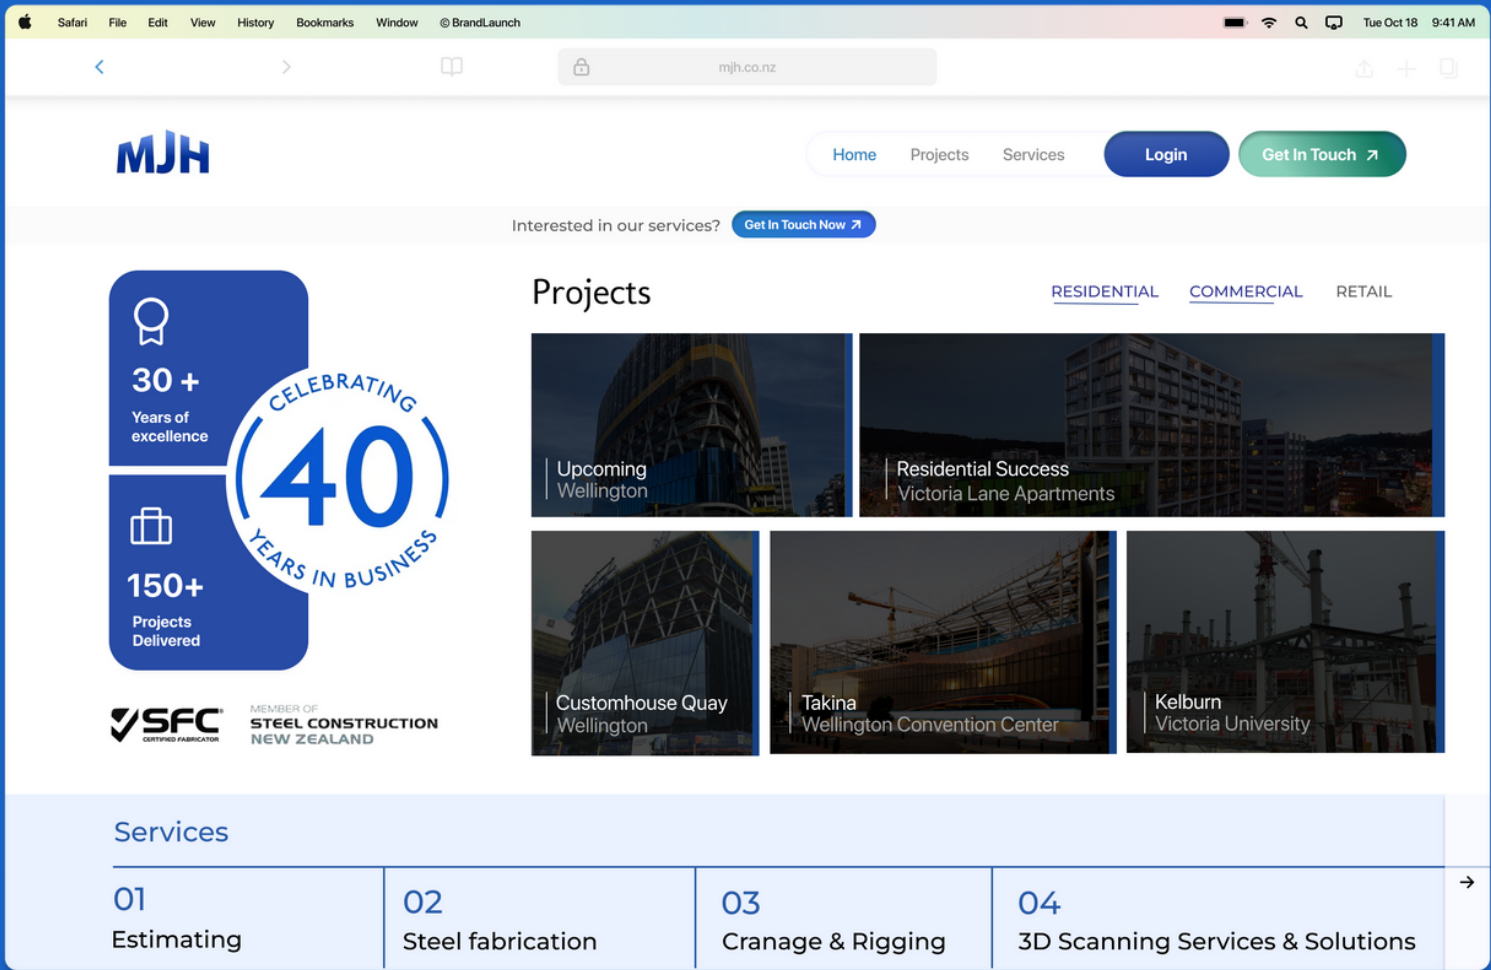

User-friendly recruitment page attracts more skilled professionals into MJH's workforce

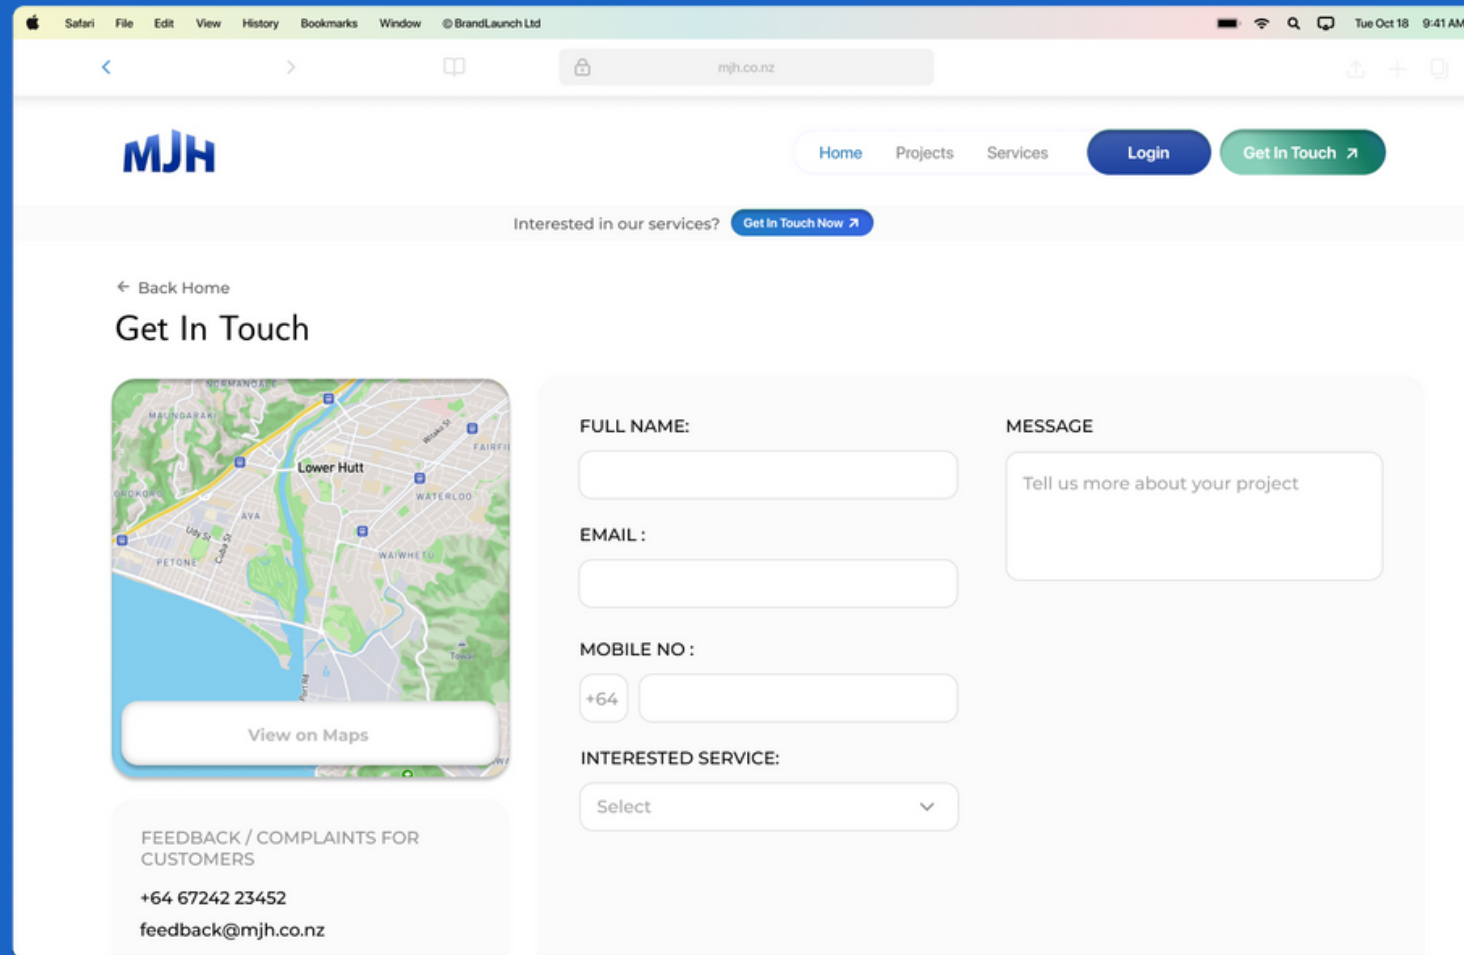

✓ Online Brand

Extending MJH's reach outside New Zealand, and allowing for new contractors to sign up on the site.

✓ Online interface

All new management dashboard to manage leads, add new projects, and manage employment openings.
